Education

Global College of Social Science and Technology

B.Tech in Artificial Intelligence

2025 - 2029(expected)

Kathmandu, Nepal

Certifications

- Getting Started with AI on Jetson Nano | **NVIDIA**

Jan. 13th, 2026

Projects

Chad: The Roast Bot [Kickstarter Project Collaboration] | AI Algorithm Developer

Sep. 2025

- Designed the **core Python algorithm**, integrating **Speech-To-Text, LLM, and Text-To-Speech APIs**, achieved **85% accuracy** in voice recognition and **<3s response time**, for an intelligent bot prototype on **Raspberry Pi 5**.
- Got fully funded on kickstarter, surpassing **\$2000**, within **3 hours**.

SeedLab | HTML/CSS, JS, Gif.js, Web APIs

October 2025

- Developed a visual laboratory to explore deterministic chaos through mathematical seeds, implementing advanced algorithms like Cellular Automata/Procedural Noise Generation, with prospective AI integrations.
- Engineered high-performance graphics system with real-time rendering, supporting multiple export formats (SVG/PNG), handling complex visualizations of over **1 million** elements while maintaining smooth performance.

MuAr (muar.narmeshverse.com) | HTML/CSS, JS, Three.js, GSAP

August 2025

- Designed and developed an immersive web experience that celebrates **music artists**, with a modern UI through creative motion design.
- Optimized performance to ensure **smooth real-time interaction across devices**, improving **load speed**.

Experience

The Biryani House

Brand Designer

October 2025 - December 2025

- Designed materials to enhance brand visibility and contributed to improve customer engagement through cohesive marketing materials.
- Managed content strategy, video editing, and social media presence to drive consistent digital growth and strengthen the restaurant's local brand identity.

Omtivational, KnoScience

Content Creator/Curator

May 2023 - May 2025

- Created and maintained an engaging content platform, designed **10 graphics/month** along with posting schedule of **8 posts/month**.
- Generated over **2 million** clicks with over **80,000 watch hours**, surpassing **11,000 subscribers & 2.5 million views**.

WiseWords

Web App Designer/Developer

Dec. 2024 - Jan. 2025

- Revamped outdated design, improved sales by **50%** over a period of 3 months after the revamp.
- Designed web pages with HTML/CSS/JS, maintaining clean, well-structured code for scalability and future enhancements.

Technical Skills

Languages: Python, JavaScript, C, HTML/CSS, SQL, PHP

Tools/Technologies: VS Code, Canva, Figma, GitHub, XAMPP, REST APIs

AI/ML: API Integration(GROQ, STT, TTS), Algorithm Development

Soft Skills: Self-directed learning, Project management, Cross-functional collaboration

Awards & Honors

- NewForm Community Monthly Web Design Challenge** | Honorable Mention x5
- Outlier AI's UI Hackathon Finalist** | veritas.narmeshverse.com
